APEX-Micro Honored with Prestigious Industry Award

Fastest Growing Canadian Electronics Manufacturer

Vancouver, BC, Canada, May 2003: APEX-Micro today announced the Company was awarded the highly coveted industry award naming it "Fastest Growing Electronics Manufacturer." This award is an honor and milestone for APEX-Micro, marking its significant growth. This award will serve as a mark of distinction for the microelectronics manufacturer, attributing its dedication to continual expansion of manufacturing skills, and constant commitment to quality, flexibility, capability, and sound growth.

Ms. Cindy Watson, Chief Operating Officer, said, "We are fortunate to be associated with such terrific partners as customers, and grateful that our manufacturing skills can contribute to their success which in turn contributes to our own success." APEX-Micro is committed to continual growth and the ability to provide its customers with the full suite of electronics manufacturing services and is the reason that APEX-Micro enjoys long-term relationships with each valued customer as they move forward into the future of technology together.
